

DAHLE SAYS IT WAS TREACHERY

Makes Charges Against La Follette's Good Faith in Political Matters.

HE WAS SOLD OUT

Had an Understanding with the Governor, Who Has Basely Betrayed Him.

WILL FIGHT MACHINE

Milwaukee, April 25.—According to corroborative and confirmed reports from Washington Representative Dahle of the Second district, long recognized as the only true-blue LaFollette member of the congressional delegation from the state, has cut loose from the LaFollette organization in his district.

Starting Allegations Made
He will be a candidate for re-nomination but he will neither expect nor receive the support of the LaFollette machine in the district.

Some startling allegations are made by Congressman Dahle regarding Governor LaFollette and prominent politicians in the second congressional district. Mr. Dahle charged Governor LaFollette and his friends with ingratitude and treachery. He said:

"They have mistaken their man. I have caught them in time and shall fight. If that kind of politics can win I want it to win with the full understanding of the people of the Second district."

Attempts to Deceive Him
Mr. Dahle will be put to the test. He returned for a visit to Wisconsin a short time ago he met the governor, Judge Zimmerman and other supporters of the administration, and was told Mr. Letsch must be allowed to have his own county, the impression given him being that this was to be merely an act of courtesy.

But from other things he learned when he returned to Washington he was firmly convinced that it was the intention to give Mr. Letsch the entire strength of the LaFollette wing in all portions of the district except Dane county, and there Mr. Dahle was to be used to get the delegates away from Mr. Adams, after which they would be turned over to Mr. Letsch. Mr. Dahle seems firmly convinced of the truth of his statements and will make a hot fight for a re-nomination.

Discharged His Secretary
Mr. Dahle began last night by discharging in a peremptory and positive manner R. A. Edwards, who has served as his private secretary during the past two months, in addition to acting as correspondent of the Milwaukee organ of the LaFollette administration. From this time forward Mr. Dahle will go it alone, and the question whether the forces of the governor can carry the former stronghold of the governor in Dane county without the aid of Mr. Dahle will be up to the test.

Representative Dahle was on the point several times yesterday and last evening of making a formal statement of the facts of the situation and his purposes in the premises and after waiting until a late hour he finally announced that he would make no statement at the present time. He was shown the foregoing statement and he offered no objections thereto, and admitted that substantially that it presented the situation as it is.

Convinced of Treachery
There is, however, no doubt in the minds of Mr. Dahle's close friends on the congressional delegation that the Second district congressman is wholly convinced that his former supporters among the LaFollette managers in the Second district have gone square back on him in the interests of Letsch of Columbia county, and that the scheme has the indorsement of the governor.

Dangers for Spooner
"If Robert M. LaFollette is nominated at the coming Republican convention, John C. Spooner will not return to the United States Senate."

SHOCK TO GOVERNOR'S HENCHMEN; FAILED TO GET AN INDORSEMENT

The La Follette People Found a Strong Sentiment Against Their Man at the Grant County Congressional Convention Yesterday.

Lancaster, Wis., April 25.—The avowed intention of the supporters of Governor LaFollette to secure an indorsement of his administration was abandoned yesterday by his lieutenants who were on the ground. A count of noses and repeated canvasses of the situation showed them the utter hopelessness of trying to manipulate the Third district convention in the interest of their chief.

Following the advent of ex-Judge Levi Bancroft of Richland Center and State Treasurer James A. Davidson of Crawford county, who arrived late in the afternoon, there were rumors that the governor's interests would not be allowed to go by default and that immediate steps would be taken to organize his forces.

Despite Bancroft's strenuous activity and earnest persuasiveness, coupled with the efforts of not a few of the governor's appointees, the

inated at the coming Republican convention, John C. Spooner will not return to the United States Senate." This was the statement made by Senator A. M. Jones at Waukesha last night.

"If LaFollette is nominated and elected," continued the senator, "he will go to the senate himself."

"What will become of Uncle Ike?" asked the Journal reporter.

"Oh, Bob'll say to him: 'I'm sorry, Ike, but the boys would insist that I go to the senate, and I couldn't help myself.'"

"Don't you ever get it into your head that there will be any compromising?" continued the senator. "There can be no compromise in this contest. It is a fight to the end and if Bob beats us, he will be a good fellow and I'll vote for him. The fight is only just beginning and this talk of a compromise is too silly to listen to. When a man begins to talk compromise, he is acknowledging defeat and the League is doing nothing of the sort."

ADVOCATES POST CHECK CURRENCY

Plan of the System Outlined Before a Congressional Committee by Post, the Inventor.

Washington, D. C., April 25.—The committee of government officials appointed by the Postmaster General and the Secretary of the Treasury gave a hearing today to advocates of bills to provide a system of postal check currency, recently introduced by Representative Gardner of Michigan. C. W. Post, the originator of the plan, set forth the needs of the business world for a more convenient method of transmitting small sums through the mails. He said that in case of the adoption of the idea all rights under the patents would be assigned to the government free of all cost. The bills provide that all \$1, \$2 and \$5 bills, except National bank notes, shall have blank lines upon their faces, so that they may be converted at once into a check payable to a named payee, and for the issuance of similar bills of the denominations of 5, 10, 25 and 50 cents.

A 2-cent stamp is affixed and cancelled on the dollar denomination and a 1-cent stamp on fractional bills as a fee to the government.

TO BE FINEST ORGAN IN THE CITY; SPLENDID GIFT OF DAVID JEFFRIS

The New Instrument for the Congregational Church Has Arrived, and is Being Put in Place—Has an Echo Attachment.

Last January W. S. Jeffris, representing his father, David Jeffris, let the contract to the W. W. Kimball Co. for a pipe organ and echo organ for the Congregational church of this city. A car containing the organ is in the city and workmen are engaged in transferring it to the church.

The organ will be by far the finest one in the city. It will be complete and will be equipped with all modern improvements. Power for blowing the organ is to be supplied by an electric motor and the echo organ is to be controlled by an electric cable. It will be the only organ in the city where the services of a blow boy are not required. The action is to be duplex tubular pneumatic throughout, including stop action. This is an entirely new departure in organ building and is a valuable innovation which will be especially appreciated by organists. The touch of this action is guaranteed to be as light as that of a piano and the repetition quicker and to be the same whether one stop is drawn or the full organ, including all couplers, is used. The action of the echo organ is electro-pneumatic.

Scale of Manuals
The organ will also be the only three manual organ in the city. The scale of manuals is from C to CCCC including sixty-one notes in each manual and the scale of the pedals is from C to F, including thirty notes. The specifications call for twenty-nine stops, five of which belong to the echo organ, and each stop runs through the entire sixty-one notes with the exception of three.

PLAN A GIGANTIC NATIONAL BANK

National City of New York, Will Make Capital Stock \$25,000,000—Surplus \$15,000,000.

New York, April 25.—America is soon to have a gigantic financial institution ranking well up to the Bank of England and Bank of France and other big European banks. The National City bank of New York has taken steps to increase its working capital to \$40,000,000. This will be effected by making its capital stock \$25,000,000, and its surplus \$15,000,000. Its stock is now \$10,000,000 and its surplus \$7,500,000. By this increase the National City Bank will be far and away the biggest financial institution in the country. Its nearest competitors will be the First National Bank and the Bank of Commerce, each of this city, with a capital of \$10,000,000 each respectively.

The singular thing in this enormous capitalization, which was not even dreamed of five years ago, is that it is a reflection of the gigantic strides of America toward the commercial supremacy of the world and of New York toward the proud eminence of being the financial center of the universe.

Queen Is Getting Better

CAPT. BALDWIN HAS TAKEN FT. PAUL'S

American Troops Aggressive in the Raid on Mindano—Chaffee Hopes to Prevent a General War.

Washington, D. C., April 25.—The following from General Chaffee was made public this morning: "Manila, April 24.—Before Capt. Baldwin could be communicated with he had taken Fort Paulus, Mindano, after a slight resistance. No casualties. Very soon afterwards the town of Canast hosted the white flag and Datto and others with a strong following asked permission to call and make peace. The Sultan of Canast has asked Baldwin to come to his camp. I have instructed Baldwin not to move as it is our purpose to show considerable force to take Moris Convers and Datto and then retire the troops by different trails, thereafter to send an expedition occasionally to Kake. Every effort will be made to prevent a general war. General Davis says the situation at this time is very favorable."

EGGS AND POULTRY CORNERED

Abnormally High Prices in West Attributed to the Packers.

Kansas City, Mo., April 25.—An attempt to control the egg and poultry produce of the country is being made by the leading packing firms and the result has been an increase in the price of these products of the farm that that cannot be justified alone by the scarcity of feed and the high price of beef and pork. Evidence that the packers are seeking to control the markets for these staple articles of diet is found in the fact that they are establishing agencies in the country districts to compete with the commission firms through which the large centers of population are supplied.

Last year at this time eggs were selling at 10 cents a dozen to the consumer. This is the season when eggs are cheapest. Yesterday and to-day the retail dealers were selling them at 18 cents. The same rule applies to poultry.

MUTTON AND PORK ADVANCED TODAY

An Unusual Consumption of Potatoes and Beans is Noted—Potatoes Jump Up Five Cents.

GROSSCUP PRAISES M'KINLEY

Glowing Tribute to Late President by Federal Judge

Rock Island, Ill., April 25.—The first celebration of Founders' day by the students of Augustana College began yesterday with an elaborate program at the college chapel. The main feature was the address of Judge P. S. Grosscup of Chicago. The judge devoted himself mainly to the life and character of William McKinley, of whom he spoke as a Christian, a statesman, an orator and a politician. He paid a glowing tribute to the late president in each of the relations of life mentioned, comparing him to Washington and Lincoln, incidentally speaking of the prevailing tendency to amalgamate commercial interests and public utilities. He expressed the belief that out of the process of merging would come forth good, that there would in due course of time come forward a Lincoln or a McKinley to remove the evils that attend the system preserving the good for the people.

Investigation for Elkins

Wheeling, W. Va., April 25.—Reno Post, G. A. R., of Grafton is to investigate the long-standing charge that Senator Stephen B. Elkins has no claims to membership in the Grand Army. The resolution adopted states that if the charge of Dr. Leeds, a member of the post, is not sustained the latter is to be dishonorably discharged.

SUCCESSFUL TEST OF NEW SIGNAL; ST. PAUL OFFICIALS EXPERIMENT

Automatic Blocking Device Was Given a Trial Yesterday—The Contrivance Sets Air Brakes and Stops Trains on Prohibited Territory

St. Paul railroad officials yesterday witnessed experiments with a new automatic block signal service which will, it is claimed, prevent absolutely collisions which are due to engineers ignoring or mistaking signals. The tests were conducted near Grayland, where four block stations extending from the Pacific Junction in the suburbs of Chicago to Edgebrook, Ill., have been installed. The tests thus far are said to be highly satisfactory to the officials.

The secret of the mechanism lies in the fact that whenever an engineer passes into a section that is blocked against him an automatic device sets the air brakes and stops the train. Another feature of only a little less importance is the automatic mechanism by which the block signals are worked and controlled. The cost of operation is practically nothing, as the device is operated by a battery of springs which are wound up by the vibratory motion of the rails as the engines and trains pass over them. Accordingly there is no dependence upon electricity.

which is ever treacherous in bad weather, and there are no expensive batteries to look after and recharge. In yesterday's experiments a train was run at full speed past a block which was set at danger. As soon as the engine entered the prohibited station there was a hissing of steam and a grinding of the shoe against the wheels, and the train came to a stop before its length was scarcely within the block station. Those who witnessed the experiments were ready to declare the device would revolutionize signal service and decrease accidents at least 40 per cent.

It was stated that the device had been in use for some time upon a section of the Northwestern Elevated road and that it had there proved satisfactory.

The stopping device is simple in construction. The setting of the danger signal throws two auxiliary incline rails on top of the train rails. As the engine runs upon these rails connection is made with a simple apparatus on the engine pilot. A valve is opened and the air brakes are set in operation.

WILL PROSECUTE THE BEEF TRUST

Doors of the Penitentiary Facing Big Combine of Packers.

A SUIT IN CHICAGO

Government Has Started in to Punish Members of the Inhuman Combine

PRESIDENT BEHIND IT

Chicago, April 25.—The preliminary steps to prepare the cases against the packers were taken today and when Special Attorney Day arrives from Washington the actual work of preparing the bill will be begun. It is announced today that the government's investigation which will be conducted entirely in Chicago will be national in its scope, Day bringing with him the fruits of a month's work by attorneys in the various parts of the United States from New York to San Francisco on which evidence it is expected the packers will be convicted of organizing and operating a trust. The district attorney was called for evidence effecting the packers acting in violation of the Sherman anti-trust law. The federal officials here are confident that the evidence at hand is sufficient cause for a conviction in a number of cases. A number of employees in the stock yards packing houses are willing to give testimony showing the existence of the trust.

Washington, D. C., April 25.—Attorney General Knox has decided that the beef trust, as now considered, violates the Sherman anti-trust law of 1890, and William A. Day, special attorney of the Department of Justice, is now on his way to Chicago, where criminal prosecution will be instituted at once, in the name of the people of the United States of America, against several of the principal packers in that city.

This action is a result of an investigation made by direction of the Attorney General, and the door of the penitentiary may open to receive some of the beef packers. They may be subjected to a fine of not exceeding \$5,000 and imprisonment not exceeding one year upon conviction of the charges which will be brought against them.

Any beef, mutton, lamb, or other products in which the packers deal may be confiscated by the United States government if they are seized while these articles are in transit from one state to another. Butchers and other persons who have been driven out of business by the operations of the beef trust will now be enabled to bring suit in the United States Circuit Courts to cover damages amounting to three times the losses sustained by them.

President Roosevelt, through Attorney General Knox, directed that the beef trust be prosecuted for unlawful combination in restraint of trade. This action was taken after an investigation conducted by William A. Day, a special assistant to the Attorney General, who in the period of three days found sufficient evidence to justify a further investigation.

This subsequent investigation was conducted at Chicago by Sol Betha, the United States District Attorney. In connection with Mr. Day, who remained in Washington, and upon a more thorough probing evidence was found which, in the opinion of the Attorney General, justifies the prosecution of the packers.

Off for Los Angeles
This morning a party consisting of Dr. W. H. Judd and wife T. O. Howe and wife and H. S. Johnson and wife left over the St. Paul road for Los Angeles, Cal., where the ladies go as delegates to the meeting of the National association of Women's Federated clubs. The gentlemen will confine business with pleasure and will stop off at numerous places on the way home.

The Carpenter Company
Considering the equipment of the place and the reputed merit of the play as a dramatic offering, the presentation of the new Russo-Siberian play, "For Her Sake," at popular prices, ought to meet with general favor from the patrons of the Myers Grand, where the new play is to be seen this evening. There are

some intensely dramatic scenes in this play, one of them being a flogging scene, illustrative of the daily events in the convict mines of Siberia. The victim of the knout is a

prince of the blood who has centered his affections, and who has involved himself and her in a conspiracy which has its termination and final happy conclusion in one of the Czar's penal colonies. The company is a very large one, and is said to be unusually competent for the work it has in hand.

Newspapers Best Medium.
Most of our advertising is placed in newspapers, for we believe that the daily press is the best medium for teaching the general public. Of course we employ the magazines, too, for certain classes of business. I do not believe in billboards. The money can be spent to better advantage in the newspapers. That is my judgment, and I have been in the agency business for twenty-one years.—Charles H. Fuller.

State Examination of Doctors.
But eight states do not now require examination by a state board of those who wish to practice medicine. They are Arkansas, Colorado, Kentucky, Michigan, Nebraska, Nevada, South Dakota and Tennessee.

GOD'S MERCY AND MAN'S INGRATITUDE

Interest in the Revival Meetings at the Court Street Church, continues to grow.

Revival meeting continue to grow in interest at the Court street M. E. church. H. E. Nott led the song service and Dr. E. S. McChesney led in prayer. Dr. E. J. Baskerville, the evangelist, then spoke from the theme: "God's Mercy and Man's Ingratitude."

God's Book is inexhaustible in its resources. It is the most living of all books. More copies of it are sold today than of any other book and more than ever sold before. It is a book full of good cheer for all who prayerfully look into its pages. Many reflect its teachings because of its merciful kindness. Multitudes in time of peril cry unto the Lord for mercy, who in prosperity refuse to recognize him. God feeds us every day and we insult him in return for his great love.

The subject for this evening: "God's Banner of Love." All are welcome.

SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

This treacherous disease dwarfs the body and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood. This dangerous and stealthy disease entrenches itself securely in the system and attacks the bones and tissues, destroys the red corpuscles of the blood, resulting in white swelling, a pallid, waxy appearance of the skin, loss of strength and a gradual wasting away of the body.

S. S. S. combines both purifying and tonic properties, and is guaranteed entirely vegetable, making it the ideal remedy in all scrofulous affections. It purifies the deteriorated blood, makes it rich and strong and a complete and permanent cure is soon effected. S. S. S. improves the digestion and assimilation of food, restores the lost properties to the blood and quickens the circulation, bringing a healthy color to the skin and vigor to the weak and emaciated body.

Write us about your case and our physicians will cheerfully advise and help you in every possible way to regain your health. Book on blood and skin diseases free.

WEATHER FORECAST.

TOO FULL FOR UTTERANCE

The Milwaukee Journal is fairly bubbling over with exuberance. Its Washington correspondence, the editorial staff and display advertising man; are all on deck and the joy and satisfaction expressed in various ways is very refreshing. When the paper gets through shouting it will discover that no one is stampeded, but that the procession is still moving, with the democratic party well in the rear. The Journal has a mania for hysteria as well as a keen eye for the nickles that flow into the coffers at the matinee performance. The management has discovered that high and lofty tumbling is popular and following in the wake of the lamented P. T. Barnum, the paper caters to the crowd that never fails to appreciate a humbug. As a business proposition, the Journal is pursuing a money making policy. The ambition is laudable and the paper is winning financial success.

The fertile brain of the man behind the gun, has discovered that roorbacks are a popular tonic for spring fever and ever since the ground hog made his appearance he has been out gunning for roorbacks. Success has crowned his efforts and the game has been served to suit the palate of a complex constituency. His last capture was made in Washington, and it caps the climax of all previous efforts. The game was found at the White House, and is dished up with artistic taste. The President had the audacity to say to a newspaper man from Milwaukee who was making a friendly call, that he was a great admirer of Senator Spooner, and the people of Wisconsin had occasion to be proud of him, and would honor themselves by keeping him in the senate. That was all, but it was enough for the 'Journal' to discover a great fake story, to the effect that Senator Spooner had shown the white feather, and was crawling on his knees to beg clemency and intercession at the hands of the chief magistrate.

The Sheldes flowed in, and the Journal was satisfied, so is every one else.

This is a fair sample of the Journal's policy. It retired Senator Whitehead from the gubernatorial race six weeks ago, and has been retelling him ever since. Senator Spooner has been lauded to the skies and damned in the same breath. Governor LaFollette has been denounced as a populist, and commended as a leader. The conservative element of the party represent a set of fools that are without parallel in the history of the country, destitute of leadership, brain or common sense. The Journal lacks sincerity and is not at all disappointed when its utterances are not taken seriously. What are the facts concerning the situation at the present time? Simply these: Senator Spooner is the people's candidate for re-election. He enjoys the loyal support of the conservative element of the republican party. Many of the Governor's supporters are also loyal to him, but the depth of their loyalty will not be determined, until called upon to decide between the Senator and the Governor. Many of them have been led to believe that they can be loyal to both, but their minds will be disabused before the convention.

Governor LaFollette declared his opposition to Senator Spooner through his tax commissioner Niles P. Haugchen, many months ago. The rumors that he has since changed his opinion are without foundation. The governor possesses fixed opinions on all questions, and is noted for standing by them.

Senator Whitehead is in the race without opposition. He has never entertained a notion of retiring from the field, neither have his friends been troubled with any such notion. The Journal and LaFollette press to the contrary notwithstanding. He is gaining in strength and popularity every day for two reasons, first, because he represents old time republicanism and second, because he bears acquaintance. He will be backed in the convention by the element that invited him to be a candidate and he will be nominated and elected unless the state has gone daffy and there is nothing to indicate that a majority of the party are bordering on that kind of lunacy. His success means the success of Senator Spooner, and this fact is becoming more apparent every day.

If the Journal will move its boom-erang out to Dane county and send a small squad up to Oshkosh, the harmony organs will be sure of protection, and if anything breaks loose in the way of a sensation, the paper will be on the ground to take it in.

A NOTE OF WARNING.

Die Germania, the leading republican German paper in Milwaukee, after endorsing Senator Spooner most heartily, issues the following note of warning to the governor:

"Yet, no matter how secure LaFollette may deem himself in his present position, it is hardly to be thought

that he is foolish enough to succumb to the illusion that he can measure strength as to power and influence with the man whom the President of the United States, who at the same time in his person embodies the highest party authority, just now has commended with such remarkable determination. John C. Spooner must under all circumstances be re-elected. Everything else is, compared to this demand, of proportionately minor consequence. This must today be the battle-cry of every patriotic Republican of Wisconsin. What lesson Governor LaFollette and his following may deduct from this need hardly be told by us, for the governor is well known as a smart, clear-sighted politician and a man who has learned to think logically. Who in the impending state campaign is for Spooner may consider himself well sheltered. Who is against him has but himself to blame for the consequences. This is not intended as an exhortation. We only express in words what the logic of the situation tells every man of common judgment."

The warning, coming at this time and from the source mentioned, is significant. If heeded, it means that the governor will not only find it necessary to declare himself openly for Spooner, but that his lieutenants throughout the state will be ordered to change front and abandon the effort to control the next legislature. LaFolletteism is so thoroughly tinged with hatred of Spooner and the conservative principle which he represents, that an air or suspicion attaches, and the people will be slow to clothe its representatives with authority.

Senator Spooner's candidacy is announced by Die Germania, as emphatically as though it had been published over his own signature. The office is seeking the man and there is no question about results. If the governor had any intentions of endorsing him, he waited too long. A forced endorsement always lacks weight and character. His friends may claim that he has been waiting for a favorable opportunity. That opportunity was presented when his friend Haugchen delivered his tirade months ago. The governor is confronted with a fact and not a theory. He can no more prevent Spooner's renomination than he can secure his own. The people are clamoring for one but they are not demanding the other.

Mrs. Thomas Foley of Indiana attempted to dispose of her husband in a novel way. While in a drunken stupor she tied his hands and feet and applied salt liberally so that the cattle would trample him to death. The old man was badly demoralized, but survived to appear against her in court. Salt is said to be good for all complaints, but it appeared to fail in a matrimonial quarrel.

The Congressional Convention at Lancaster nominated Babcock by acclamation but there was great silence when it came to endorsing the governor. What's the matter with LaFollette in his 'stronghold'.

Grant County was a little shy on resolutions, as were a number of other counties in the district. The experience in Richland Co. was an object lesson, and they were perfectly satisfied to let the governor do his own endorsing.

The Tillmans of South Carolina, and the Carnacks of Tennessee, belong to the same class. The senate could dispense with their service without loss, and the states represented would save their reputation as well as the disgrace of humiliation.

Funston is a success at swimming rivers and fighting Filipinos, but as an orator he is a little off color. "Every man to his trade" would be a good motto for the army and navy to adopt.

The winter is having a serious time in throwing off its mantle. The West is snow bound, while Wisconsin is blinded with dust, and threatened with serious drought.

A corner on hens is the latest. As the hen is a product of the farm, the corner will be appreciated in agricultural districts. Now is somebody will corner fish, a vegetable diet will become popular.

PRESS COMMENT.

For equal taxation and an honest service by state employees, the people will elect John M. Whitehead for governor.

Oshkosh Northwestern: Strange how styles vary in different cities. In Chicago the papers are always reminding the people that they should boil water before using it. In Boston the form of advice is to "breathe through your nose." In New York the daily greeting is almost invariably followed by the inquiry of "How's the market today?" And in Oshkosh it is getting so that the common query which is passed along is: "Who is going to be the postmaster?"

Green Day Gazette: In announcing himself for congress William Ellis of Pashtigo states that he is in favor of LaFollette for governor and Isaac Stevenson for the United States senate. If the Republicans of the ninth district will be compelled to accept all three or drop them all there will be three separate and distinct dual thuds heard in this neck-o-the-woods about convention time.

Sheboygan Telegram: The Hon. Adlai Stevenson still insists that the

Democrats should present an "unbroken front". The front of the Democrat party much resembles the bosom of a full dress shirt whose wearer has been engaged in an unexpected foot ball rush.

Superior Telegram: Yesterday Bishop Merrill of the Methodist church in commenting on the crowded conditions of one of the New York conferences said: "I can't understand what the Lord wants of so many Methodist ministers." If this had been said by any one but a Methodist, then there would have been trouble.

Beloit Free Press: Notwithstanding the repeated assertions that there is no desire on the part of the LaFolletteites to defeat Senator Spooner's re-election, when a resolution endorsing the Senator was presented in the Richland county convention Monday it was hotly opposed by the LaFollette leaders. Nevertheless it was adopted.

Beloit Free Press: When there is a primary law in this state it will be a law solely in the interest of the people themselves and not of professional office seekers. There will be mighty little of the "machine" about it and what there is will be so simple that anyone can turn the crank who desires to.

There was a man in our town Who thought he was so wise, He did not want the place to grow Because he thought the size Was big enough, and factories Brought riots, and the hump Of working for the town too much— We write him down a chump. —Milwaukee Journal.

LaCrosse Republican and Leader: Those Richland Center LaFollette resolutions went through with the same kind of a rush that characterized the Stevens bill clamor—the people wanted neither.

Illinois Senator is Interested in a Valuable Gold Mine.
Tacoma, Wash., April 25.—Less than three years ago, after discovering a mountain of rich gold-bearing gravel in the Altin district, Albert A. Johnson, formerly common councilman of West Superior, went to Chicago and laid his mining proposition before Senator Mason, who he had never seen before. Senator Mason believed his story, and made investigations. The result was that money was forthcoming to develop the property, for which a cash offer of \$1,000,000 had been recently refused.

Nearly \$100,000 has been expended in purchasing 200 tons of machinery, which is now ready for operation. With a large force of men Johnson expects to wash out \$15,000,000 to \$20,000,000 in gold within a few years. This means that "Billy" Mason of Chicago will soon be a millionaire, if he isn't that far already.

WORK ON NEW DEPOT WILL BEGIN SOON

Contractors Are Now Getting the
Material for the Building Ready—
Change in Location.

It is expected that the work on the new Chicago, Milwaukee and St. Paul depot will be begun within the next ten days. The contractors are now getting the material for the building ready and a number of carloads of supplies will soon be on the ground.

It is about settled that the main part of the station will be east of High street and the baggage rooms and long sheds between High and Academy. This change will bring the waiting rooms and ticket office on the Jackson street end of the station and make Jackson street the main thoroughfare to the station.

President A. J. Earling, General Manager H. R. Williams, Traffic Manager J. H. Hilland, Assistant General Superintendent D. L. Bush and Superintendent P. C. Eldredge went over the ground on yesterday afternoon and were favorably impressed with the idea of making this change in the plans.

The St. Paul company are now putting in the side tracks at the gravel crushing plant, on the Wheeler farm and as soon as this is completed will start the track to the side of the cement post factory and expect to be able to get it completed in ten days. It is necessary they should get the track in at once to allow the work to be commenced on the buildings.

NEW CURTAIN FOR THE ELKS' BENEFIT

Manager Myers Planning a Surprise
When Rose Coughlan Plays
Here on May 16.

Manager Peter L. Myers, has a surprise in store for those who attend the Elks' benefit performance at the Myers Grand on May 16 in the shape of a handsome new drop curtain. The curtain is now in the city and was painted by The Lee-Lash Company, 39 Broadway, New York, and is a handsome piece of work.

The decorations are about the size of the opening onto the stage being 30x33, and the scene is one that the audience will not tire of. The present advertising curtain will be done away with when the new one is in place. There will be four or five advertisements on the new curtain but they are made a part of the picture and are not the main thing as on the present curtain. Manager Myers is determined to have the theater in gala dress on the evening of the Elks' benefit when Rose Coughlan makes her appearance. The Lee-Lash company have curtains in all the principal theaters of the country. Their curtains are in use at the Bijou, Great Northern, Alhambra in Chicago; at the Grand Opera house, Casino, Third Avenue, Murray Hill and numerous others in New York; at the Davidson, Academy of Music and Bijou in Milwaukee; besides the majority of the prominent theaters in different big cities throughout the country.

PACKAGE OF FORCE SWEATED TOBACCO

H. S. McGiffin has received a box of force sweated Connecticut tobacco from the New York firm of Lewis Sylvester & Sons. The tobacco is very fine and went through the sweat all right, and looks as bright as a new gold dollar. The tobacco is of the same quality as the 1200 cases now being packed by Mr. McGiffin. It shows a large percentage of fine cinnamon colored wrappers and will be a ready seller at a good profit.

Mr. McGiffin was quite elated this morning over the prospect that the tobacco he is packing will go through the sweating ordeal in good condition as it will be treated the same as the samples received this morning from the East.

Sanford Soverhill, of this city, has just finished packing 400 cases of the same grade of Connecticut.

New Man for Parker Pen Co.
John Gollner, of Belgrade, Servia, has entered the employ of the Parker Pen Co., and will have charge of the foreign lists. Mr. Gollner was obliged to leave Servia on account of political convictions and since leaving has been exiled for ten years. He is also barred out of most of the countries of Europe by the decree, Switzerland being the only country where the decree is not recognized. He is highly educated and speaks six different languages. He is able to write English readily but can only speak the language slightly. He has been in this country but a short time but has managed to pick up a smattering of the language and soon expects to be able to talk readily.

SENATOR MONEY STABS CONDUCTOR

Defends Himself Against a Brutal Employee of Street-Car Company.

MAN'S WOUND IS ONLY SLIGHT

Version of the Affair as Given by the Principal Differ in the Causes That Led Up to the Main Features—Both Threaten Suit.

Washington, April 25.—Two United States senators got into trouble yesterday. Senator Money of Mississippi wounded a street car conductor who assaulted him, and Senator Clark of Montana appeared in the police court this morning to answer to a charge of exceeding the speed limit of twelve miles an hour with his automobile.

Senator Money, frail in physique, retired in manners and a stickler in etiquette, boarded a car which he thought would take him to a railroad station where he wanted to catch one of the morning trains out of town. At the capitol grounds he was forced to transfer to another car. Scarcely had he seated himself when the conductor requested his fare. It was not forthcoming. The car was stopped, the senator alighted, the conductor was painfully cut on the hand and the senator held the penknife that inflicted the wounds.

The senator and the conductor give conflicting versions of the affair. Mr. Money claims that when informed he must change cars to reach the station he demanded a transfer ticket, but was told that it was not necessary.

"I jumped from one car to the other," the senator stated, "and immediately the second conductor demanded my transfer. I told him I had no transfer and that he had seen me get off the other car. He insisted on receiving either a transfer or a fare in a most brutal and insolent manner, and I told him I would give him neither. The conductor was then joined by a burly fellow wearing the uniform of a fireman. Together they disengaged my hand, and the car coming to a sudden and violent stop, I lost my seat and landed on the ground. There the conductor struck me several times with his fist. To defend myself I drew the only weapon I had, a small pocket knife. The conductor endeavored to wrest it from my hand and grasped the open blade, being slightly wounded."

The conductor denies that he used rough language or was insolent in manners. When Mr. Money refused to produce either a transfer or pay his fare he told Mr. Money he must leave the car. He quoted Mr. Money as exclaiming excitedly:

"I will cut your throat first." Mr. Money then drew his penknife, according to the conductor's version, and it was while defending himself that he was wounded. He says that he struck the senator with his fist to prevent him making further use of the knife.

Senator Money swore out warrants for the conductor and fireman and afterward visited the district commissioner's office to demand that the latter be disciplined. He also wrote the president of the street railway demanding the discharge of the conductor, threatening that unless he was summarily dismissed he would enter suit for damages against the company. The street car conductor says that he will proceed in the courts against the senator.

Senate Passes Minor Measures.

Washington, April 25.—Just before adjournment of the senate Mr. Hawlin concluded his speech in opposition to the Philippine government bill. As on previous days, he devoted much of his time to consideration of the testimony taken before the Philippine committee, analyzing it in connection with orders issued by the war department and by general officers in the Philippines. He was particularly severe in his denunciation of Gen. Chaffee for the orders he had issued in carrying out the policy of the government. He declared in conclusion that the United States would reap a whirlwind of misfortunes and disaster as a result of its policy in the Philippines.

The senate passed several unobjectionable measures of minor importance and a large number of private pension bills.

Great Loss from Arid Lands. Washington, April 25.—William H. Chadwick, chairman of the transportation committee of the Board of Trade of Chicago, has written a letter to Representative Newlands of Nevada, author of the pending irrigation bill, presenting new reasons why this measure should be passed. Mr. Chadwick holds that the states lying east and northeast of the arid lands suffer enormous loss as a result of burning heat coming from the arid sections. "The great loss," he says, "entailed through the partial failure of the corn crop and enforced substitution of other grain to supply the deficiency thereby caused, with wheat, rye, oats, etc., re-

sulted in the curtailment of exports to such an extent as to be not only extraordinary, but in some instances, as with corn, sensational."

Philippine Boys Are Fighters. Washington, April 25.—Adjutant General Corbin has received a letter from Henry C. McCook of Philadelphia in regard to the reported orders of General Smith to destroy all Filipinos found in arms, ten years of age and upward. Mr. McCook says: "Sergeant Brown from Company G, Second regiment, in which my son, First Lieutenant Paul McCook, is an officer, visited me this week. I asked him what was the physical standing of a youth of ten years in the Philippines. He answered that a ten-year-old lad would about rate with a fifteen-year-old boy here. He further informed me that boys of that age and up to twelve could bear arms greatly to the disadvantage of their opponents; that sometimes there would be a considerable proportion of such boys in the hostile ranks, as represented by those who surrendered and those taken prisoners."

Oleo Amendments Voted Down.

Washington, April 25.—The oleomargarine bill was sent to conference by the house after agreeing to the senate amendments with some modifications suggested by the agricultural committee. The opponents of the measure offered a number of amendments, the principal one of which was designed to place renovated butter on the same footing with oleomargarine, but they were overwhelmingly voted down. The latter part of the day was devoted to the agricultural appropriation bill, which carries \$5,158,570. Mr. Fox (Miss.) made an exhaustive speech in defense of the suffrage clause of the Mississippi constitution.

Cuban Cases Fall.

Washington, April 25.—Probably the most important development of the day in the Cuban situation was the failure of Senator Aldrich to secure a caucus for consideration of the House bill. He has been working diligently in the hope that unanimous action by his party upon the proposition could be secured by caucus action. He finds, however, that while there is practically no objection to a conference, which would not be binding, there is strong opposition from a number of senators to going into a caucus where the decision of the majority would be binding.

Favor Bankruptcy Repeat.

Washington, April 25.—Four of the Democratic members of the House committee on judiciary united in a minority report on the bill amending the bankruptcy law. The report favors the repeal of the entire law and says: "We do not believe there is any necessity or any general public demand for the longer retention of this law. It has tended to burden the federal courts with litigation which could be just as well conducted by the courts of the States." A substitute is proposed repealing the bankruptcy law.

"I wrote to Dr. Pierce for his advice."

The lady, from whose letter we quote, got what she wrote for, and is a well woman to-day as a result of following Dr. Pierce's advice and using Dr. Pierce's Favorite Prescription, the medicine which makes weak women strong and sick women well. "Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. Sick women, especially those suffering from diseases of long standing, are in-

visited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I can truthfully say that Dr. Pierce's Favorite Prescription is a wonderful medicine and deserves the praise given it," writes Mrs. Emma Spooner, of Lakeview, Montana, Co. Mich., Box 258. "I was sick four months, and the medicine prescribed by the doctors did me no good. Finally I wrote to Dr. Pierce for his advice. He answered in a very kind letter instructing me what to do. I followed his advice and today, am a well woman, thanks to Dr. Pierce."

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

A Cough

is an effort to relieve the irritation of inflamed throat, bronchial tubes, larynx and lungs. Vinol soothes and heels this inflammation, builds up the waste tissue and strength, and cures the cough.

"Mr. W. J. HAMILTON, 1706 Timea St., Electrician for The Garton-Daniels Co., authorizes me to say that you are at liberty to publish a testimonial over his signature, to the effect that his wife was left with a severe cough after the La Grippe; loss of appetite, and, as he expressed it, got right down to the bottom rung of the ladder. After taking Vinol the cough disappeared, appetite returned, and she is now feeling first-class and is getting strong and gaining in flesh."

"I feel it my duty to thank you for introducing Vinol in Joliet, as I know that it was the means of saving my little girl and restoring her to health. Here are the facts: About a year ago my child was taken with a severe attack of Bronchitis, one lung was completely filled, and while she recovered from the bronchial trouble, the affected lung, remained useless. My daughter began to fail again. I became very much worried and decided to try Vinol which you so highly recommended. When she had finished half the bottle she was taken very ill and vomited large quantities of mucus, but when the vomiting ceased we found to our great joy that the filled lung was entirely free."

Mrs. W. L. McLEAN, 111 Logan Ave., Joliet, Ill."
